

To the HASKD Foundation

Thank you for supporting my trip to the American Junior Academy of Sciences conference held in Washington D.C. I am extremely grateful and appreciative of HASKD's efforts in providing me the funds necessary to have this unique experience.

Science has (and will be!) one of my greatest passions. From researching about exciting new topics to presenting the results of an completed experiment; I loved all the parts to the research process. To be invited and recognized at this National level was truly a high school aspiration achieved.

But of course, none of this would have been possible without some assistance. By funding my registration, housing, and transportation to the conference, the HASKD foundation allowed me to fully experience and treasure the knowledge, friendships and experiences of the weekend.

Your generosity truly inspires and motivates me to continue giving back and become more actively involved in my community. I cannot thank you enough for the opportunities and memories the HASKD foundation enabled me to have.

Thank you all again!

Sincerely,

Sophia AuDuong
